OBJECTIVE

Experienced Django backend developer with strong Python programming skills, proficient in designing scalable web applications. Adept in UI/UX principles and familiar with Figma, I strive to combine technical expertise with creative design to deliver user-focused, efficient solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering Sambalpur University Institute Of Information Technology	2022 - 2026 Burla, Odisha
Intermediate in Science (XII) Jawahar Navodaya Vidyalaya	2019 - 2021 Khordha , Odisha

SKILLS

Technical Skills: Django Backend Development , UI/UX Design

Languages: Python, C, Java, Html, CSS, JavaScript, React JS

Database: MySql , MongoDB , SQLite ,

Course Work: Data Structure & Algorithm, Object-Oriented Programming, Operating System

Developer Tools: VS Code , Git & Github , Figma , PyCharm , Anaconda , Jupyter Notebook

Soft Skills: Problem Solving, Team Player, Critical Thinking , Video Editing

EXPERIENCE

Google Developer Student Clubs - SUIIT Backend Development Co-Lead	Sep 2023 - August 2024 SUIIT , Burla
--	---

- Led backend development for GDSC projects, including event registration portals and live dashboards, delivering reliable and scalable solutions.
- Built backend systems for competitions and hackathons, enabling real-time leaderboards experiences.

GDG - On Campus Core Domain Lead Backend Development Lead	Sep 2024 - Present SUIIT , Burla
---	-------------------------------------

- Led backend development for key GDG campus projects, delivering reliable and scalable solutions.
- Worked closely with teams to enhance user experiences and streamline project workflows.
- Mentored peers in Django and backend technologies, fostering a collaborative learning environment.

PROJECT

College Talkies | Python, Django, JavaScript

- **User Interaction:** The project enables users to create and participate in discussion threads, making it a platform for engaging in topic-based conversations.
- **Responsive Design:** It uses Bootstrap to ensure the site is mobile-friendly, providing a smooth user experience across different devices.

Cafe Management Website | Python, Django , JavaScript , Html ,Css

- **Backend Development:** Built with Django, handling data models for menu items, reservations, and customer feedback.
- **Dynamic Content:** Integrated database queries to dynamically render menu items and user inputs.
- **Form Handling:** Implemented secure forms for reservations and feedback, ensuring smooth data validation and storage.
